Washington, D.C. 20231

Dear Sir:

The Office Action mailed September 12, 2002 has been received and carefully studied. In response, the following amendment is made.

~~Please make the following changes in the claim.~~

1. A method of treating incontinence, inflammation, immune regulation and disorders of bone metabolism which comprises applying to a patient in need of treatment, an amount sufficient to treat such disorders of a compound of formula (I)

wherein either the cyclopentane(ene) radical or the α or ω chain may be unsaturated and the dotted lines represent the presence or absence of a double bond; R is a hydrocarbyl radical or a heteroatom substituted hydrocarbyl radical comprising up to ten carbon atoms
